

Announcement: New Insulin Benefit in 2020

The **New Insulin Benefit** will begin on January 1, 2020 for service cooperative members who participate in the health insurance pool through BCBS of Minnesota.

This new benefit includes plan-eligible insulin options as a covered benefit with no member copay or deductible responsibility. Normally a change like this would be implemented on your renewal date, but this instance is in effect January 1, 2020.

To review benefit details, including insulin coverage (after 1/1/20), visit bluecrossmn.com or for questions on coverage and prescriptions call BCBS Customer Service 1-866-537-7702.
