

Coaching Policy

Arrowhead Head Start will implement a researched-based coaching system.

All education staff will be assessed to determine their strengths and needs to determine which staff would benefit most from intensive coaching. Intensive coaching will be provided to those staff identified.

For staff not identified as benefiting from intensive coaching, other forms of researched-based professional development will be provided.

This policy complies with Head Start Performance Standard 1302.92

Approved by Policy Council on 12-2-2020
