

Community Needs Assessment

Arrowhead Head Start will complete the community needs assessment (CNA) in conjunction with our parent agency, Arrowhead Economic Opportunity Agency. As per our community action agency requirements, the assessment will be completed every three years.

Annual updates to community needs will be completed through recruitment efforts, information from community partners, and identified changes and trends within the service area.

Data gathered will be reviewed and analyzed by the management team when completing strategic planning and will be shared with the policy council and AEOA board members to ensure informed decision making on program services.
