

Curriculum Policy

Arrowhead Head Start staff will implement a developmentally appropriate research-based early childhood curriculum that is aligned with the HSELOF and with the Minnesota Early Childhood Indicators of Progress.

The curriculum will have an organized scope and sequence that is based on the developmental progression of how children learn.

Fidelity of the curriculum will be monitored with a fidelity tool, through reviewing weekly lesson plans and through observations.

Staff will be supported in implementing the curriculum with initial and ongoing curriculum training, as well as providing coaching on teaching practices and curriculum implementation.

This policy complies with Head Start Performance Standard 1302.32

Approved by Policy Council on 2-16-1999.
