

Transportation Policy

Head Start Staff will ensure the safety of all children being transported to and from Head Start programming. Staff will consistently implement Active Supervision and safety practices that are outlined in the program's Transportation Procedures. All Head Start staff will be trained on bus safety, bus evacuations, transportation policies and procedures prior to providing Bus Monitoring duties. Transportation safety includes the safe boarding, riding, and unloading of the bus, in addition to transitioning to and from the classroom for transportation.
