

Use of Media Policy/Procedure

The use of media, such as television, DVD's, videotapes, CD's, I-pad etc. is limited to educational, developmentally appropriate, and culturally sensitive programming. Media are used to supplement curriculum or as a special event rather than as part of the regular daily routine.

Policy/Procedure:

1. Staff will list planned educational media to be used on the Lesson Plan.
2. Staff will preview any DVD, videotape, CD, or I-pad program etc. to be used **prior** to use.
3. Staff discuss what is viewed with children both before and after to develop critical thinking and viewing skills.
