Dear Parent/Guardian:

Someone in your child’s classroom has the health issue below. This note is to tell you signs to watch for in your child. Call your doctor if your child has any of these signs.

If you have questions call the Head Start Health Manager, at 748-7336.

************************************************************************

Pinkeye: Starts within 1-3 days. Eyes are red and might be itchy or watery. Eyelids can be red and itchy. There could be a yellow or green crust around the eyes and lashes. The eyelids might be stuck together in the morning.

If your child has pinkeye, ask the doctor when he/she can come back to school. If given antibiotics, your child can return 24 hours after the first dose.

Call your Head Start teacher or the Health Manager right away if a doctor says your child has pinkeye.
