classroom. Teachers and children are always partners in play. A video was presented to members from HighScope.

Christine DeGroote shared the assessment tools through the COR which goes hand in hand with the HighScope curriculum. We do ongoing observations for our children. All staff are trained and certified so all observations are consistent. Data is entered in the COR online. Reports that come from the COR are shared with parents at home visits and conferences. Planning within the classroom is also based on the reports. This helps staff training and coaching needs. The data is used 3 times per year.
